Should allegations relate to abuse or unlawful activity, Children's Social Care, the local Authority Designated Officer, Ofsted and /or the Police will be notified as applicable.

Acceptable use by children and young people

Acceptable use Agreements are to be used to inform children and young people of the appropriate behaviours expected to ensure online safety. Children and young people will also be informed of the behaviours which will be deemed unacceptable. This will allow children and young people to take some degree of responsibility for their own actions.

In understanding Acceptable Use Agreements, children and young people will become aware of the potential risks associated with misuse and the sanctions which will be applied, where necessary.

The Acceptable Use Agreements are shared and agreed with children and young people and will be displayed as a reminder.

In the event of misuse by children and young people

Should a child or young person be found to inappropriately misuse ICT the following sanctions will be applied

- Should it be considered that a child or young person had deliberately misused ICT by not adhering to the Acceptable Use Agreement, a letter will be sent to the parent or carer outlining the issue. The child or young person may be temporarily suspended from a particular activity.
- If there are to be further incidents of misuse, the child or young person will be suspended from using the internet or other relevant technology for an increased period of time. The parent or carer will be invited to discuss the incident in more detail with a senior manager and the most appropriate course of action will be agreed.
- The sanctions for misuse can be escalated at any stage, should it be considered necessary. In the event that misuse is deemed to be of a serious nature, should a child or young person be considered to be at risk of significant harm, the safeguarding Policy must also be applied. Allegations of serious misuse will be reported to the appropriate agency, for example the Police or children's social Care.

In the event that a child or young person should accidentally access inappropriate material, it must be reported to an adult immediately. Appropriate action is to be taken to hide or minimise the window. The computer will not be switched off nor will the page be closed, as it may be necessary to refer to the site during investigations to allow effective filters to be put in place to prevent further inadvertent access.

The "Hectors World safety Button" is to be available to children and young people where online access is to be enabled. At a push of a button, the child's view of the screen will be obscured. Adults will immediately be alerted and should take immediate and appropriate action. Should a child or young person be considered to be subject to potential abuse, sexual requests or other inappropriate contact, the CEOP Report Abuse Button is to be used to make a report and further advice is to be sought.

Acceptable use by parents and carers

Partnership working with parents and carers should be considered essential practice for promoting an agreed and consistent message which will define acceptable and unacceptable behaviours. Parents and carers will therefore be asked to sign an Acceptable Use agreement together with their child in order to promote this shared message.

Parents and carers are to be encouraged to contribute to the Acceptable Use Agreement and should be advised to use it should their child access similar technologies at home.

Should parents or carers wish to use personal technologies, such as cameras within the setting environment, authorisation must be obtained from the senior designated Person for safeguarding. Specific guidelines for the use of such technologies must be followed.

Acceptable use by visitors, contractors and others

All individuals who affect or come into contact with the early years setting are to be expected to behave in an appropriate and respectful manner. No such individual will be permitted to have unsupervised contact with children and young people. All guidelines in respect of acceptable use of technologies must be adhered to.
