Policy on first aid

First Aid Statement

In our setting staff are able to take action to apply first aid treatment in the event of an accident involving a child or adult. At least one member of staff with current first aid training is on the premises or on an outing at any one time. The first aid qualification includes first aid training for infants and young children.

Procedures

The first aid kit

Our first aid kit complies with the Health and Safety (first aid) Regulations 1981 and contains the appropriate equipment to deal with small children and adults.

In addition to the first aid equipment each box should be supplied with

Disposable gloves, disposable aprons and a children's forehead or ear thermometer.

The first aid box is easily accessible to adults and is kept out of the reach of the children.

At the time of admission to the setting, parent's written permission for emergency medical advice or treatment is sought. Parents sign and date their written approval.

Parents sign a consent form at registration allowing staff to take their child to the nearest accident and emergency unit to be examined, treated or admitted as necessary on the understanding that parents have been informed and are on their way to the hospital.
